

Celebrating My Career Dreams

By: Madilyn Warner

Oh, what should I choose for my career?  
I could be a zookeeper, a policeman or an engineer!

The possibilities are endless, you see.  
My hard work and determination are the key.

I will set goals and study and tirelessly read.  
My teachers will help me and that's all I need!

If I were a lawyer I'd enforce all the rules  
and do the good deeds that I learned in school.

If I were a doctor I'd help find the reason  
that people get sick every year in flu season.

If I were a scientist, I'd find a solution  
to stop tsunami's and all this pollution.

Oh my, oh my! Oh what should I be?  
Maybe I should get into Astronomy.

After all of the worry and all the confusion,  
I've given it thought and drawn this conclusion....

There are so many choices that I could make.  
But with THIS career, I can't make a mistake!

For my career, I've decided to be  
just like the ones who have inspired me.

Not a baker, an artist or even a preacher,  
the career I will choose is to be a TEACHER!!!
