

Being an Astronaut

**Being an Astronaut has to be
The greatest career in the world to me.
To soar high in the sky
Like a bird or a bee.**

**To have the opportunity
To see the moon and the stars up close.
I think I like this career the most.**

**Can't you see me in that Astronaut Suit?
With that cool gray helmet and those big white boots.
Now, I'm blasting off to the moon.
Don't worry mom, I'll be back soon!**
