

Use your Voices.

All the people of the world find your voice,
Through all your work and your play
And all that you say
Change our world.

Medical researchers study to find cures,
Law enforcers help people to understand
that together we can make a difference.

Consumers make the right choices and
producers work toward protecting our Earth
from pollution and harm.

Teachers show the children that they can do good
Politicians use your powers
To save this world as you should.

Parents you have the most important job of all
to teach your children they can make a difference,
let them hear your call.

Use your minds, use your voices
Use your work to save our world.

Can You Hear Me?

The text is written in a colorful, hand-drawn style. The word 'Can' is in blue and orange, 'You' is in purple and green, 'Hear' is in yellow and blue, and 'Me?' is in purple and green. A faint globe is visible in the background.
