

## Find Your Voice as a Counselor

Bred as a woman  
Made a mother and wife  
Born an elementary school counselor  
To guide youngsters through life  
These children need guidance  
I know it's true  
Trial and tribulations  
They all must go through  
Disappointed by education  
What have we done?  
We have let legislatures and politicians  
Take away all the fun.  
I am the counselor  
Here to help with children's pain  
I have the credentials  
Like you, in a classroom  
I was trained.  
Legislatures and politicians want a quick fix,  
But I as a counselor  
Have never being given the ingredients for that mix.  
Teachers think I have a magic wand - from a store,  
But to my knowledge they don't sell them anymore  
Administrators free counselors up  
So we can help children heal.  
There are too many children taking the sit me down pill.  
Guidance to children  
For this is my choice  
I hope someone is listening  
Finally, I am using my counselor's VOICE.
