

Change My World

What do you see?

A world that is not fit for me.

Violence is what I see.

People dying on the streets.

People dying in their sleep.

The graveyard is full.

Pollution everywhere.

How can I change my world?

Let me tell you how.

More programs, more policies, more hope, more solutions.

No more jails, no more wars, no more hate, no more pollution.

Recycle, Reuse, Renew and don't Abuse.

Make your world a better place.

Our world a better place.

My world a better place...
